

**CHILD KILLED
IN KING'S MOUNTAIN
AUTO WRECK**

As a result of a wreck on the Kings Mountain road, last Sunday one child is dead and other persons are more or less badly injured. The party of seven was driving on Kings Mountain road, near Tantas, when Fred Dunlap of 86 Linden avenue, who was driving the car, turned out toward the outer bank in order to allow another vehicle to pass. In turning out, however, his rear wheel came too near the edge of the bank, and the rear end to slide over the bank. The car tipped completely over, throwing the occupants out, and plunged to the bottom of the canon. The car's descent was only stopped by striking a large tree in the bed of the canon. It was here that the child was killed, Gertrude Reid, four years old, who had clung to the wreck in its descent down the bank and her lifeless body was found crushed between the car and the tree. She was shattered by the impact. So tragically was the child's body wedged into the wreckage that it required six hours for the rescue party to free it.

A WELCOME GUEST

President Warren G. Harding and his party will be the guests of the State of California next week. The president will be in this section during the fore part of the week and will inspect the Base Hospital at Menlo Park during his stay.

We should be proud of the fact that we can have this great man in our midst. President Harding has demonstrated to the world that he is a fearless exponent of all that pertains to the welfare and safe continuance of our republican forms of government. While he has been steadfast in his opinion that some form of a world court for the settling of world questions should be a part of our national program.

He has preached a doctrine of old-fashioned honesty and has endeavored to see that the laws of the country are upheld. The president has endeared himself to the people during his trip throughout the country. While he was in Washington it was impossible for the people to know him, but now that he has visited in most of the states the electors of our country have found that he is a lovable human being with most of the same qualities that are possessed by the average American.

PRESERVING THE TREES

A good deal has been said and written lately about saving the big trees of the Harrison canon for posterity. Committees have visited the place and have found it all that anyone could want in the way of a public play ground that is out in the heart of nature.

The supervisors have held meetings and conferences and so far an agreement has not been reached. The committee has made an offer of \$65,000 for the property and the owner has come down to \$75,000. Personally we believe that \$65,000 is enough for the property. The man who holds title says he paid \$48,000 for it two months ago. He has had no expense in holding it. But we want the place.

From a personal standpoint we believe that the man who owns the place should let the county have it. For years he has been cutting trees. That has been his business. He has made a comfortable living out of cutting trees. We think therefore that he should have a bit of sentiment about trees.

We have never made a living from trees, but we love them. There is nothing more beautiful than a great tree that stretches its branches up to the sky and brings down the rain and makes a home for the birds. Trees are the nearest to being immortal of any living things. These trees that we would save have been living and growing and giving shade and beauty for centuries. They were alive when Christ was ministering in Galilee. There are no other living things that were alive then that are still living and being loved.

We really believe that Mr. Peterson should say, "Take the trees and pay me what you think they're worth."

OUR CLIMATE

They say that when people have nothing else to talk about, they talk about the weather. We have other things to mention and to think about, but can we talk about the climate for just a few minutes? Have you ever seen a more delightful summer than we are having now? My, but we are fortunate people. We read every day about the deaths in the east from the heat. Prostrations are a common thing in the middle west. But out here by the Golden Gate we have to take our overcoats when we go for a ride in the evening and the days are so balmy that we want to be outside as much as possible.

California, Inc., is getting hundreds of thousands of dollars to advertise the wonders of California. Let them send their pilgrims down here into San Mateo county if they want to make loyal Californians out of the settlers they bring to California. Here every prospect pleases and life pleasures and happiness abound. We are proud of Redwood City.

BE A BOOSTER

The following came to us the other day. We do not know to whom to give credit for the piece as it is unsigned, but we thought it was good enough to be passed along:

If you think your town the best,
Tell 'em so!
If you'd have it lead the rest,
Help it grow!
When there's anything to do,
Let them always count on you.
You'll feel good when it is through,
Don't you know?

If you're used to giving knocks,
Change your style;
Throw bouquets instead of rocks
For awhile.

Let the other fellow roast,
Shun him as you would a ghost;
Meet his banter with a boast
And a smile.

When a stranger from afar
Comes along,
Tell him who and what you are—
Make it strong.
Never flatter, never bluff,
Tell the truth, for that's enough.
Be a booster, that's the stuff,
Don't just belong.

NEW ACT TO REDUCE MOTOR CAR THEFTS

California's legal barricade against the automobile thief is materially strengthened by the new California Vehicle Act which becomes effective September 1st, according to George Chalmers, assistant general manager and head of the inter-insurance bureau of the California State Automobile Association.

"For years past the automobile thief," said Chalmers yesterday, "has evaded the law by storing stolen vehicles in public and private garages until search for them had died down and the danger of disposing of the stolen property thus minimized.

"The authorities have been powerless to require private and public garages to list the numbers and report the description of cars stored. In consequence the automobile thief first rented a private garage. After stealing an automobile he would drive the same to this garage, usually situated in a secluded district, and there change the appearance of the car, or remove identification marks, while the authorities were vigorously searching for the missing vehicle. When the search had died down the thief would then dispose of the car with little fear of detection.

"This loop hole has been eliminated by the new vehicle act, which the association was instrumental in drafting and passing through the legislature. This act, for the protection of motorists, imposes certain duties upon the owners of garages, both public and private, and makes non-performance of same a misdemeanor. Section 56 provides that every owner or lessee of any building used for the purposes of a private garage who shall rent such building or any space therein for the storage of a motor vehicle when such agreement to rent includes only such private garage or space therein and any motor vehicle shall be stored therein shall within twenty-four hours thereafter report such fact, together with the name of the person to whom such building or space is rented and a description of the motor vehicle stored therein including the name of the maker, the motor number and the license number, if any, to the police department in any city or county in which said building is located within a city or county and to the sheriff of the county if the building be located within unincorporated county territory. The term 'private garage' shall not be construed to include any public warehouse nor any public garage as herein defined.

"Every person engaged in the business of conducting a public garage is required to keep a written record of every motor vehicle stored therein for compensation for a period longer than twelve hours, which record shall include the name and address of the person storing such vehicle together with a brief description of such vehicle including the name or make, the motor number and the license number thereof as shown by the number plates and registration certificate upon such vehicle. Every such record shall be open to inspection by any peace officer.

"These provisions, which will be welcomed by motor car owners, police departments and sheriffs will do much to reduce thefts."

If you marry for money, love also may come, and if it does it's more likely to stay than if it had no substantial foundation.

One reason that there isn't more building is because people don't need houses now that they live in autos.

A Plea for Cushioned Auto Bumpers

Dear Editor:

Will you please publish this?

The quiet citizens living along the Menlo Park-Santa Cruz turnpike have moved to the country to enjoy the peace and security, commonly attributed to rural surroundings. They would appreciate it greatly if the autoists, cruising along at 65 to 90 miles per hour, buoyed up by moonshine, bootleg, and such-like stimulating beverages, would purr smoothly on the front of their machines. The sudden loud noise occasioned by collision with the mail boxes of said citizens is very disturbing to the slumbers and irritating to the nerves. Also, if they can spare the time(?) we would appreciate having the mail boxes tossed to one side of the road, to avoid their being run over by the later joy-riders. The mail boxes are strong, but were not made to act as pavements for high powered machines to run over.

We hope we are not asking too much. We have long since learned to keep off the road ourselves at night, but find it rather inconvenient to take in our mail boxes and trees. So if the roysters, returning from Portola and way points, could just bump them off quietly and toss them off the road, we will gladly put them up again before the mail man comes in the morning.

Sincerely,
A SUBSCRIBER.

A note is something that is made so it can be renewed.

SUPERVISORS IN SPECIAL SESSION

The special session of the San Mateo county board of supervisors was short and snappy, meeting at twenty minutes to twelve, the business coming before the board was disposed of by noon, although two very important matters were brought up.

The first matter considered by the board was a petition presented by Attorney Lee T. Ross, representing the Morgan Oyster Company, to have a portion of the marsh land, which is at present included in the incorporated limits of Redwood City, declared outside of the city limits. This petition has previously been presented to the board of trustees of Redwood City and was then referred to the supervisors. As it was necessary to set a date at which this petition may be heard, the board set August 6th as the day for hearing the petition.

Chairman Hopkins, of the committee appointed by the board to investigate various tracts of timber land in the county with the purpose of purchasing a tract for a county park, reported that the committee had investigated several tracts, which while not so desirable as the Peterson tract, could be had at greatly lower rates, and that the committee had in mind other tracts which it had not had time to investigate. The supervisors, therefore set August 6 for the hearing of the report of this committee, as Chairman Hopkins said that that date would afford the committee sufficient time to investigate the situation thoroughly.

Raising the American Flag at Portsmouth Square, San Francisco

IN the presence of a great crowd, gathered near the Custom House in San Francisco, Captain John B. Montgomery, landing with a party of Marines from the U. S. Sloop, Portsmouth, raised the American Flag, July 9, 1846.

This ceremony occurred in the old Plaza just two days after the bloodless capture of Monterey, and within a stone's throw of the first headquarters of the Bank of Italy. The present Montgomery Street branch of this bank stands exactly on the spot where the detachment of Marines landed. A bronze tablet placed there by the Native Sons of the Golden West, commemorates the event.

Watch What Happens!

Lubricate your automobile with Zerolene, which costs about half what you pay for many other oils, and watch what happens.

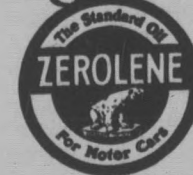

First, you find that your gasoline bills are lower. Repeated tests have demonstrated that, other factors being equal, the car lubricated with Zerolene makes about 5% better gasoline mileage than cars lubricated with other oils.

Second, your car goes from 25 to 50% farther before you need to grind valves or remove carbon. This fact, too, is fully substantiated by numerous tests.

Insist on Zerolene—even if it does cost less.

Days of Pony Express to be Staged at Fair

What Governor Arthur M. Hyde of Missouri will say to Governor Friend W. Richardson of California in the Pony Express relay which will be staged from St. Joseph, Mo., to Sacramento by the daring riders of the old pioneer days, will be delivered to the chief executive of California at the State Fair grand stand before a throng of people by Will Tevis, the most spectacular rider in California.

The incident will be one of the big features of September 8th at the State Fair. As a background to the cross-country relay Pony Express race, the special train bearing the Sacramento Whites will pull into the State Fair grounds to help make the celebration more realistic.

Tevis, who will have the mount from Placerville to Sacramento. He will receive the Missouri governor's letter to Governor Richardson from the Pony Express rider who relays at Placerville. Charles Paine secretary of the Fair, is planning to make the occasion one of the big events of the fair.

MOTOR VEHICLE TAXES PAY 45 PER CENT OF HIGHWAY EXPENSES

A perusal of the figures relative to highway construction and maintenance and motor vehicle taxes shows that the total of \$334,901,000 collected in motor vehicle taxes last year amounted to 45 per cent of the total expenditure on the federal, county and state highways, according to the current issue of Motor Land, the magazine published by the California State Automobile Association. There are 2,819,386 miles of highways in the United States certified by the United States Bureau of Public Roads, of which 350,000 miles are improved highways. The Federal Government states and counties spent \$743,011,559 on the construction and maintenance of these highways during 1922.

REDWOOD DEPARTMENT CHECKS SAN CARLOS GRASS FIRE

A grass fire seriously endangered the home of A. M. Kuzile, superintendent of the Pacific Silicate Works here, whose home is in San Carlos. The fire was in the hills of the Redwood Fire department, which was sent for as an emergency measure. The fire is supposed to have been caused by some small boys playing with matches.

WOODSIDE WOMAN SEEKING DIVORCE FROM S. O. OFFICIAL

According to a complaint filed by her attorneys, Pillsbury, Madison and Suto, of San Francisco, Mrs. Ursula Johnson, daughter of the late Mr. and Mrs. Jos. G. Hooper of Woodside, is seeking a divorce from her husband, S. O. Johnson, an official of the Standard Oil Company. The complaint charges the defendant with drunkenness and asks for the custody of a three year old daughter. Before her marriage Mrs. Johnson was a resident of Woodside, where she has many friends and relatives at present.

NEWS OF MENLO PARK

An expenditure of almost \$300,000 for improvements in the United States Veterans' Hospital at Menlo Park is to be made during the coming year, according to announcements this week by Colonel Frank E. Leslie, commanding officer.

Colonel Leslie said that at least \$286,000 will be spent on the institution before July 1, 1924, according to word received from Washington. This will include \$50,000 for repairs and alterations on the group of buildings known as the old base hospital.

There are still many details necessary to complete the present veterans' hospital, which is equipped with 1029 beds and has received 875 new patients within the past six months.

Of the 46 veterans' bureau hospitals throughout the United States, the Menlo Park institution is the second in size, according to officers. Praise for the progress at the institution during the past six months, including the work of the hospital staff and the co-operation of patients was given by Colonel Leslie.

The veterans' hospital, opened this year, consists of nine buildings, constructed at a cost of more than \$1,400,000 and is devoted to the care of neuro-psychiatric patients. It has accommodations for 500 patients, besides bungalows for medical officers, with a mess hall, nurses' rooms and other quarters.

With the older group of buildings, now being used for tuberculosis patients, pending the construction of the proposed new hospital at Livermore, the Menlo Park institution has more than 1000 beds, occupied by 679 patients, with 350 beds available for new patients.

The hospital staff includes 27 medical officers, 49 nurses, 22 technicians and instructors and 321 employees of other classes.

Menlo Park friends are interested in the marriage of Miss Elizabeth Cunningham and Dr. William Rappleye which took place last Friday in New Haven, Conn. The bride and bridegroom are now on their way to California and as the bride belongs to one of the most prominent families in San Francisco society she will be given a hearty welcome and old friends will be delighted to greet her husband.

But owing to the death of the bride's mother, Mrs. James Cunningham, a few months ago, there will be no elaborate entertaining for the young couple.

For that same reason the wedding, which took place last Friday, was small, with only relatives attending. The ceremony was performed at 4 o'clock in the afternoon at the home of the bride's sister, Mrs. Murray A. Sargent. Another sister, Mrs. Cornelius Van Hemert Engert, went to New Haven from her home in Washington for the ceremony.

The right of a man to ignore his children by a former marriage and his divorced wife, in making his will was upheld this week when the will of Walter E. Flanders, a wealthy automobile man of Detroit and Chicago, disposed of an estate of approximately \$500,000, was admitted to probate. A suit to set aside the will is expected to be filed soon.

The will left virtually all of the estate to Flanders' second wife, Mrs.

Norma M. Flanders of Williamsburg, Va., except a life income of \$150 a month to Mrs. Helen Flanders Mills, a daughter by the first marriage.

The other children, George, Walter, William and Mary Flanders and their mother, Mrs. J. E. Newman of Menlo Oaks, were not mentioned in the will, which provided that the second wife should receive an income of \$18,000 a year.

Gus Hastadent, chief clerk of the Little Green Door, left on his annual vacation last Monday. During his absence he will visit his mining property in Nevada. His many friends predict he will bring back a wife.

Frank Russell passed away in San Francisco last Friday, following a long illness. His boyhood was passed in Menlo Park. After learning his trade as a plumber with his uncle, the late N. J. McNamara, he went to Nevada, where he spent many years of his young life, returning to San Francisco some years ago. In the eighties he was one of the best known young men in the community. He was a brother of Mrs. W. A. Doyle of Menlo Park. Besides his sister he is survived by two brothers, George E. Russell, Deputy U. S. Internal Revenue gauger at Santa Clara, and Charles Russell, the well-known San Francisco policeman.

Edwin Smith, who has been a substitute clerk in the San Francisco postoffice for some time past, has been given a permanent clerkship in the branch postoffice located at the customhouse.

Senator Shortridge and Mrs. Shortridge left last evening for the Yosemite Valley to meet President Harding who will arrive at the valley tomorrow. The president who has a high regard for the senator, sent him a personal invitation to meet him there. Mr. and Mrs. Shortridge will accompany the chief executive through the state.

Father Kunkel of St. Patrick's seminary has gone to Baltimore, his old home. He was ordained in St. Charles seminary there a number of years ago, coming some time after to Menlo Park to become treasurer of the institution.

C. H. Meyer will make a motor trip to Los Angeles on Monday on a business and pleasure trip to be gone for a week.

Last week the stork left a baby at the home of Mr. and Mrs. E. J. McLaughlin. Mother and baby are getting along nicely.

Miss Margaret Harrington will leave today for Oakland to spend a vacation with her cousin, Miss Jane Harrington, who has been a guest of her cousin here.

Mrs. Lillian Wilson and Mrs. Ethel Hara were given a miscellaneous shower at a meeting of the Native Daughters' parlor last Monday evening. Both young ladies were recently married. They received a large number of useful presents from sister members of the parlor. After the routine business was completed refreshments were served. The two beautiful young brides received the congratulations of their many friends.

NEWS OF THE WEEK FROM RUNNYMEDE

The old fashioned dance given Wednesday evening by the native daughters was a delightful occasion. So successful was it that the organization contemplated giving another in the very near future.

James T. O'Keefe and family returned from a motor trip to Oregon on Wednesday. They had a delightful time in seeing the many sights of the northern state.

David Williams, the wealthy advertising man of San Francisco, has bought the pretty home of Charles H. Williamson in Menlo Oaks, joining the estate of Judge Charles A. Shurtliff. Mr. Williamson is engaged in the insurance business in San Francisco and is to establish a branch in Los Angeles which will require his presence there for some time. Later he may return with his family to reside here. The departure of Mr. Williamson and his interesting family is the cause of many expressions of regret among his many friends in Menlo Park.

President and Mrs. Warren G. Harding will visit the base hospital on Wednesday and later in the day will be driven to Stanford University and from Palo Alto the presidential party will take the train for Southern California. Mr. Harding is an able and patriotic executive. The future historian will rank him among the great presidents of the country. He is a sound and sound executive to be at the helm of the ship of state to sail it into peaceful waters of prosperity and happiness.

Next Monday evening in Menlo Theatre the people of this community will gather to discuss incorporation. Notice has been sent out to all the citizens so that there should be a large and representative meeting present to intelligently and dispassionately argue the question from every angle. Able speakers have been secured to make addresses, among them will be W. Locke, secretary of the Municipal League of California, Judge Malcolm, an authority on municipal law of Palo Alto, Horace Amphlett, the man who was instrumental in securing the charter for San Mateo and other equally able speakers. Every one interested should come and take part in the proceedings and be prepared to vote, when the election is called. At this meeting all phases of the question will be debated and the matter of incorporation may be amicably decided upon. Come and be enlightened and hear both sides of the question. As the proponents of incorporation are sanguine of its success already many names are mentioned for officers. Judge C. A. Shurtliff will be the first mayor of the new municipality if he wants it. He would be the unanimous choice of the voters. Those mentioned for trustees are: Timothy Hopkins, Charles Merrill, Joseph A. Donahue, Leon Douglas, Harry B. Morey, Sr., Andrew Clinch. These are only a few. Other candidates will appear. No doubt there will be a lively scramble for office.

Mr. and Mrs. Sherman Ford are visiting Mr. and Mrs. Roger Lapham at Menlo Park. They plan to remain for several weeks. Last night Mr. and Mrs. Lapham entertained at dinner for their guests.

Mr. and Mrs. C. M. Moore of San Francisco passed the day, Sunday, at the home of P. A. Hutchinson.

The Austin and Patterson families of San Francisco are visitors with Paul Milani this week.

Mrs. M. A. Larson, sister of Mrs. J. Tremelling, left Monday for her home in Boise City, Idaho, stopping to visit relatives in Auburn and Dutch Flat before leaving the state.

Mr. and Mrs. Wm. Copley, who have been at the A. Anderson place the past several weeks left Sunday for Mountain View.

Mr. and Mrs. F. C. Nickerson visited with Modesto friends at Moss Beach Tuesday.

Mr. and Mrs. J. T. White, nee Blanche Harper, left Sunday for Oakland, where they are locating.

Invest In A Vacation At Yosemite Lodge

Vacations should be more than two weeks of idleness. Expended wisely, your annual rest becomes an investment that pays good dividends in better health and more "pep" for work.

That's why Yosemite Lodge is the choice of more than 20,000 visitors each year as the scene of their vacations—they want all the good time that's coming to them, plus good food and good accommodations at reasonable prices, with the added attractions of beautiful scenic surroundings.

And they get all at Yosemite Lodge, the center of life in Yosemite Valley. There are ample accommodations, completely comfortable to suit every taste and every purse. Built to banish care, the Lodge provides delightful recreations—big Swimming Pool, 120 feet long and bordered by a sand beach, nightly camfire and entertainment, dancing to the music of an orchestra—a dull time is impossible!

Come up to Yosemite Lodge—NOW—to joyous days and cool, crisp nights. All roads and trails are open in August—trout rise eagerly to a fly—it's a great month.
